

“Pastor Dave” Reveals 20-Year-Old Walleye Fishing Secret – And The Walleye Just “Kill It”!

Dear Fisherman,

I'll tell ya, interviewing “Pastor Dave” was probably one of the best hours I've ever spent on the phone.

Not only did he give me a boatload of easy – immediately useable tips for catching more Walleye than 95% of the other guys – but he gave me a few lessons about life too.

For now, I wanted to give you a quick summary of a short clip taken from the interview, which has to do with a jig that everybody stopped using – but is now irresistible to the walleye. And trust me, they aren't “gently hitting” it like they hit most jigs...they are absolutely killing it! (This is for you guys that just want get right to the heart of everything, quick)

The Brown Rubber Worm

Ok, I admit this may sound a little hokey – but that's exactly why it works so well, because people are ignoring it!

20 years ago, the overall BEST jig for catching Walleye was a simple brown rubber worm. As time went on, new fangled jigs and lures came on the market – and people started to embrace the newest “fad jigs”.

They didn't switch over because of results...they switched over because the newer jigs were more interesting.

A few years ago, Pastor Dave's friend was out on the water – she is a complete novice Walleye Fisherwoman when compared with Dave.

Well, on this particular day she was absolutely *slaying* the Walleye – and the old timers (including Dave) were absolutely stunned.

Guess what she was using?

You got it. A simple brown rubber worm. It was 4 inches long with an auger tail – just like they used in the “old days”. Nobody could hold a candle to the sheer numbers of Walleye she was catching.

...and while everyone else is using the big-eyed latest and greatest Walleye jigs, she (and Dave) continue to kill 'em with the brown rubber worm.

Sometimes the best stuff comes from the old days...not always, but sometimes. And this is one of those times...try it!

I hope you enjoyed the interview clip as much as I did making it. Pastor Dave is quite a guy. I couldn't thank him enough for spending time talking to me. When guys older than me talk, I listen – especially when they talk about fishing.

There is something else you need to check out if you like catching more catfish than your buddies....
